

General conditions of the final test-type evaluation method:

- The exam date is **flexible** and can be scheduled at any time **between August 1 and December 31**, which is more than enough time. However, if your training program has expired within this period, you must request an **extension** before you can take the exam on the specified dates.
- A **single exam** will be conducted to any combination of Master's diplomas, Postgraduate programs, and Higher Education Programs, regardless of the number of payments made for different types. Everything will be integrated into a **single evaluation**. However, **Spanish for Business** is the only exception and always requires a separate exam.
- The exams for standalone Higher Education Programs and the Spanish for Business will consist of **15 questions**, and you will have **1 hour** to complete them.
- **Incorrect answers do not deduct points.**
- You have **two attempts** to pass your exam.
- The cost for opting into the test-type methodology varies depending on the number of programs you choose to be examined on. Check payment links and prices [here](#).
- Subjects you have already passed will not be validated, so you will need to take the test-type exam for **all subjects that make up the programs** you request to be examined on.
- There are practice multiple-choice questionnaires available that correspond to those already included in each subject. Some of the questions from these questionnaires will be used in the exam.
- Once the exam begins, the timer will start, and it cannot be paused.
- The exam will be considered passed with a score of 5 or higher. If you pass on the first attempt, you cannot retake the exam to improve your score.
 - **If you do not pass** in the two available attempts (a very unlikely scenario), you will need to renew your credits by paying the current fees to get more exam opportunities. Otherwise, you can return to the classic methodology and retain the original completion date you had before registering for the test-type exam.
- Upon completing your exam, we will contact you within the next 30 days to arrange the delivery of your diplomas.
- It is not necessary to take test-type exams for all your training programs. However, it is important to note that diplomas issued by Universidad Isabel I will only be issued (provided you have paid the corresponding fees) when you have completed all your programs, both the agile methodology and the classic methodology. On the other hand, you can receive ENEB diplomas as you complete each of your training programs..
- In addition to these general conditions related to the agile methodology, you can consult our general academic regulations in our legal notice. [Click here](#) for more information.

An example of **diplomas** you can request and receive from both the European Business School of Barcelona and Universidad Isabel I:
